

Ann and Dom looked after our VERY VERY special needs dog and house in St. Peters, NSW for a week in February 2015. What can I say about these two? Not only were they understanding, thoughtful and caring of our extremely needy dog, they looked after our home so well. Not only were they excellent pet and home carers, they also identified and fixed a major internet speed issue we have been trying to sort out for years! Ann and Dom are absolutely lovely people who care about the level of service they provide and take joy in the variety of situations they experience at each house sit. It was an absolute pleasure to meet them and a privilege to have Ann and Dom look after Sheldon (dog) and our place. We can't thank them enough!

Cheers,
Shani V.
