

Ann and Dom

October /November 2016

Ann and Dom stayed for a month in my village house in the Peloponnese in Greece.

The project was to care for 6 cats who live outside but are nevertheless pretty needy.

Ann and Dom kept in touch with me throughout their time in my house so that anything that needed asking or discussing could be dealt with immediately. They were very easy to deal with: friendly, efficient, capable and communicative.

When I returned, the house was immaculate and the cats were all very well and calm.

I would not hesitate to recommend them.
